Differentiated Writing Center

Thanks so much for downloading my Differentiated Writing Center packet! This packet is designed to offer a way for students to practice writing in a differentiated approach. The students will have the opportunity to explore writing through 4 included activities: vocab it, sentence it, story it, and label it. Each activity comes with 5 levels of differentiation to meet all learners. You will be able to use these activities as a supplement to your whole group writing time, guided reading lesson and/or as an independent writing center option. On the following pages, explore each of the 5 levels of differentiation for the activities. Choose the level of differentiation that works for your students at that time.

Watch a [DETAILED OVERVIEW VIDEO HERE](#).
