CVC Words - Segmenting

Tara West - Little Minds at Work

PHONEMIC AWARENESS: SEGMENTING

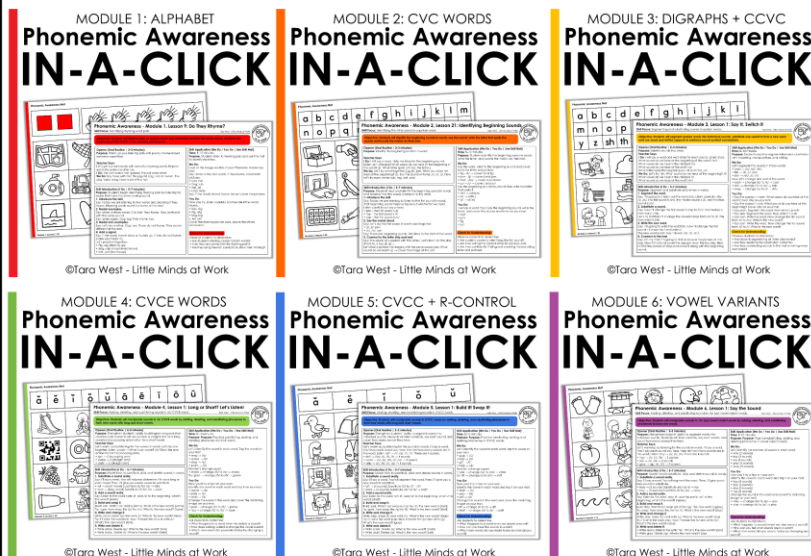

Module 2: CVC Words

Thanks for accessing the Phonemic Awareness: Segmenting free download. This resource is thoughtfully designed to bridge the essential connection between phonemic awareness, the ability to hear, isolate, and manipulate individual sounds in spoken words, and phonics, where those same sounds are linked to their written representations through decoding and encoding. Within this download, students engage in purposeful segmenting practice that helps them break words into individual phonemes. This foundational skill directly supports accurate reading and spelling. As students learn to segment, they begin to internalize the alphabetic principle, recognizing that letters and letter combinations represent specific sounds. This progression builds the understanding needed for decoding words in print and encoding them in writing. Be sure to watch the included overview video, where I walk you through each component and demonstrate multiple ways to use the resource to meet your students' diverse needs. The video will help you see how the materials can be integrated across your instructional day, from oral phonemic awareness routines to small-group phonics lessons, creating a seamless transition from sound to symbol and from listening to reading.
