Math Primary Pull and Record

Thanks so much for downloading my Math Primary Pull and Record Packet. This packet is designed to offer a fun and engaging way to practice math skills. You will be able to use these pull and record centers as a supplement to your whole-group lesson and/or as an independent center option. To prep the centers, simply print the skill cards and cut these individually. You will then print out the matching recording mat. The students will need to have a pencil, crayons or markers to indicate their answers. Below you can see a variety of ways to use the centers. If you choose to utilize these centers for more than one use, then you'll want to laminate them or place them into a dry-erase sleeve. Students can use a dry-erase marker or plastic manipulative to indicate their answers.

Students will pull a card and circle the answer from the choices given on the recording mat.

Students will pull a card and use the given template to record each answer.

Students will pull a card and write the answer directly onto the mat.

Students will pull a card and draw the answer directly onto the mat.
