## ■ A NOTE FROM TARA WEST

This free download includes a comprehensive set of 400 phonics-based successive blending task cards designed to support foundational reading instruction through high-impact, skill-aligned practice. The task cards cover a full range of phonics concepts, including CVC words, digraphs, CVCE words, r-controlled vowels, and vowel variants. Each set is crafted to provide meaningful repetition while keeping students engaged and confident in their skill-building. Students will state the first sound, blend the first and medial sound, and then blend the entire word. These successive blending task cards can be used flexibly across instructional settings, making them ideal for small-group instruction, whole-group practice, independent literacy centers, or intervention lessons. Whether you're introducing a new skill or reinforcing previously taught content, these cards offer structured and consistent practice that aligns with the Science of Reading. Teachers can use the cards for spiral review, differentiated instruction, targeted phonics intervention, or ongoing skill assessment. With hundreds of opportunities for hands-on blending, these cards make it easier to meet students where they are and help them grow into proficient readers. If you have questions, email [littlemindsatworkLLC@gmail.com](mailto:littlemindsatworkLLC@gmail.com), follow on [Facebook](#), or visit, [Little Minds at Work](#).
